

Thyroid Px

Thyroid support

Our number one top seller!

Thyroid dysfunction and low body temperatures are increasingly more common and can cause many disturbing symptoms.

Fortunately, research has identified a variety of natural ingredients that can enhance and maintain thyroid function.

Thyroid Px is the most potent thyroid support offered by Restorative Formulations. It provides essential co-factors for thyroid hormone production, including vitamins D3, B12 methylcobalamin, zinc, selenium, and iodide. It also contains a unique blend of thyroid-supporting herbs including guggul myrrh and organic herbs blue flag, triphala, ashwagandha root, nettle, kelp, and ginger.

Formulation Features

- Provides minimum of 1 mg iodide per capsule in form of 700 mcg from potassium iodide and approximately 300 mcg iodine from kelp
- Organic blue flag root preserves thyroid function and supports natural detoxification
- Guggul myrrh supports optimal iodine uptake and thyroid enzyme activity
- Rosmarinic Acid made from a concentration of 50 fold from rosemary helps with thyroid immune function

Formula

Each/Chaque vegi capsule contains:

Vitamin(e) D3	400 IU
Zinc (zinc citrate)	5 mg
Iodine/Iode(Potassium iodide)	0.70 mg
Selenium (selenomethionine)	0.10 mg
Kelp/Kombu (Laminaria digitata)	200 mg
Blue Flag root/Clajoux racine (Iris versicolor), O	150 mg
Guggul Myrrh/Myrrhe (Commiphora molmol)	50 mg
Ashwagandha root/racine (Withania somnifera), O	50 mg
Nettle herb/Ortie dioique(Urtica dioica), O	50 mg
Triphala, O	50 mg
N-acetyl Cysteine	25 mg
Rosemary Extract 50% Rosmarinic Acid (Rosmarinus officinalis)	25 mg
Ginger root/Gingembre racine (Zingiber officinale), O	10 mg
Diiodotyrosine(3,5 Diiodotyrosine)	0.20 mg

O=Certified Organic

Non-Medicinal ingredients: Hypromellose vegi-caps
Ingredients non medicinaux: hypromellose vegi-caps

95% of our herbs and herbal extracts are certified organic or ecologically wildcrafted.

Supplementation

- Adults take 1 to 2 capsules twice daily, with or without food or as recommended by your health care practitioner.

Diet & Lifestyle

- Minimize physical and emotional stress
- Eat organic, whole foods as much as possible
- Eat small frequent meals with protein to maintain optimal blood sugar levels
- Exercise moderately and consistently
- Avoid known allergens and toxic chemicals
- Sleep 7-8 hours minimum per night

Thyroid Specific Support

- Avoid all toxins that interfere with thyroid function including endotoxins
- Decrease heavy metals that affect thyroid function (e.g., mercury, lead, and cadmium)
- Decrease halogens that interfere with sodium iodide synthesis (e.g., fluoride, chlorine, and bromine)
- In select cases, a gluten-free diet may be helpful.
