

T-Cell Balance Px

Health Benefits:

- Supports balance and stability within the immune system, including T and B cell production.
- Calms an overstimulated state, within an already normal range.
- Provides protection against liver damage from hepatotoxins and/or oxidation.

Formulation Features:

- It provides a synergistic blend of naturally derived compounds that work together to support balance within immune and inflammatory functions.
- Contains equal parts organic cordyceps fruiting body, rehmanna root, and highly concentrated rosemary leaf extract.
- Provides the highest concentration of rosmarinic acid as compared to competing brands.

RF-1255

Supplement Facts

Serving Size: 2 Capsules
Servings Per Container: 30

	Amount Per Serving	% DV
Rehmannia Root Powder	400 mg	†
Organic Cordyceps Mushroom Fruiting Body	400 mg	†
Rosemary Leaf Extract		
Rosmarinic Acid 200 mg	400 mg	†

† Daily Value (DV) not established

Other ingredients: Modified Vegetable Cellulose (capsule)
All Organic Herbs are Certified Organic

T-Cell Balance Px provides equilibrium to an unstable immune system while supporting healthy T-cell function.

Key Ingredients

Organic Cordyceps

Cordyceps may help balance immune function through T helper cells and NF kappa B. It also provides liver-protective properties against toxins. Cordyceps promotes healthy ratios of T cells and supports healthy apoptosis, within normal range, of aberrant T-cells. Our cordyceps is derived from cultivated substrates and, therefore, is free from insects. It contains only 100% organic fruiting bodies, providing significantly higher levels of beta-glucan as compared to Cordyceps mycelium grown on grain.

Rosmarinic acid

This potent 50:1 extract of rosmarinic acid from rosemary leaf provides 200 mg of rosmarinic acid per serving. Rosmarinic acid is shown in research to support balanced inflammation and cytokine responses. As a side benefit to older adults, it can act as a neuroprotector through inflammation-balancing actions.

Rehmannia root

Rehmannia is traditionally used to support healthy circulation, immune system, leucocyte health, and balanced T and B cell production. Catalpol and other iridoid glycosides in rehmannia balance immune cells such as interleukins and prostaglandins.

Supplementation

1-3 capsules twice daily, or as your healthcare practitioner recommends. Some practitioners recommend 10 caps per day (in divided doses) for the first month. Can be taken with or without food. To achieve a balanced immune response, use for 3-6 weeks.

Also Recommended

Can be used alone for immune balance, or as a companion to ThyroCare and Thyroid Px to support immune balance in patients concerned with thyroid support. For focused neurological support, consider Neuro Px Extra Strength for higher potency.
