

Adrenal Px Balance CAPSULES

Health Benefits:

- Supports adrenal function to balance endocrine system organs.
- Effective for an overstimulated neuroendocrine system with imbalanced cortisol and immune stress.
- Helps to normalize the stress response, increase resistance to stress, and help maintain healthy cortisol levels within normal range.
- Reduces occasional fatigue and promotes physical vitality and mental alertness.
- Contributes to a balanced DHEA-to-cortisol ratio.
- Compared to Adaptogen, used for early-stage stress, this product is used for moderate to extreme adrenal stress.

Adrenal Px Balance is a top-selling formula used to support adrenal glands and improve endurance after extensive chronic stress.

Key Ingredients

Rhodiola root (*Rhodiola rosea*)

Organic certified Rhodiola contains salidroside and rosavins, which have been shown to reduce stress symptoms in both human and animal studies. Rhodiola promotes a healthy mood by balancing normal neurotransmitter function and stress adaptation. In situations of extreme physical exertion, it sustains cardiovascular and respiratory efficiency and function.

Rhodiola remains endangered because virtually the entire industry uses wildcrafted Rhodiola from China. However, Restorative Formulations is dedicated to ethical sourcing and sustainability, so we choose to invest in rhodiola grown at certified organic farms in Alaska and Alberta, Canada.

We only harvest after three years of growth to concentrate the active compounds such as salidroside and rosavin. This time allows plants to concentrate these compounds naturally, so solvents are not required to achieve high potency. In addition, there is no need to implement a heating process typically used for removing solvents; thereby, we are able to maintain higher levels of bioactive essential oils.

Hawthorn Berry (*Crataegus species*)

Hawthorn contains a group of flavonoid compounds, which contribute to antioxidant support and balanced inflammation in healthy individuals. As a gentle nervine, Hawthorn may help minimize the stress response that contributes to adrenal weakness.

Holy Basil (*Ocimum species*)

Ocimumoside and cerebroside compounds found in holy basil have been shown to moderate the impact of stress on health and emotional well-being. Most holy basil extracts found in other brands dispel all the volatile oils in the process of extraction because of the necessity of using heat to evaporate solvents used in the extraction process. Important health benefits are lost without the volatile oil compounds. Restorative Formulations holy basil is heated slowly to preserve the eugenols in the volatile oils.

Supplementation

Adults take 1 to 2 capsules twice daily, or as directed by your health care practitioner.

Also Recommended

Adrenal Balance Px is a good companion product for other endocrine formulas such as Thyroid Px and Estro Px to reduce fatigue and reestablish systemic balance.
